

“Our objective was to retain students through graduation while still supporting transfer to the four-year institutions we have agreements with. TransferCheck not only aligns with this objective, but it also helps ease the burden on our transfer advisors by reducing their number of appointments with online student self-service.”

Nora Manz, Delaware County Community College
Director of Advising, Transfer and Articulation

Paving the Way to 2-YR Completion and 4-YR Transfer

Two-year institutions are often the entry door for learners aspiring to earn respected credentials that will impact their life. Most two year institutions offer open enrollment, enabling access to pathways that can lead to a four year degree. One of the most difficult challenges facing higher education is helping these learners complete a two year pathway, prior to transferring to a four -year institution. Nearly 80% skip out early, take coursework that does not count towards four year degree requirements and often change program of studies in their transition.

AcademyOne, with our institutional partners, has developed a very unique solution that embraces a real-time transfer checklist reinforcing completion of two-year requirements while at the same time validating completion and standing to attend the four year program of their choice. AdvisED™ enables a learner to view “what if” scenarios and follow pathways to completion without losing credits. Academic and administrative offices from 2-yr and 4-yr institutions can work together addressing the policies and practices of transfer reinforcing state-wide initiatives. AdvisED™ offers institutions a means to manage pathways, versions and workflow far different than standalone student systems and degree audit tools.

Reduce Costs

Help your staff be more efficient with software that eases administrative workload.

Retain to Completion

Keep students on track to a degree by showing them exactly what courses will get them there.

Unlock the Future

Reduce credit loss with transfer pathways that map how courses will count toward a baccalaureate degree.

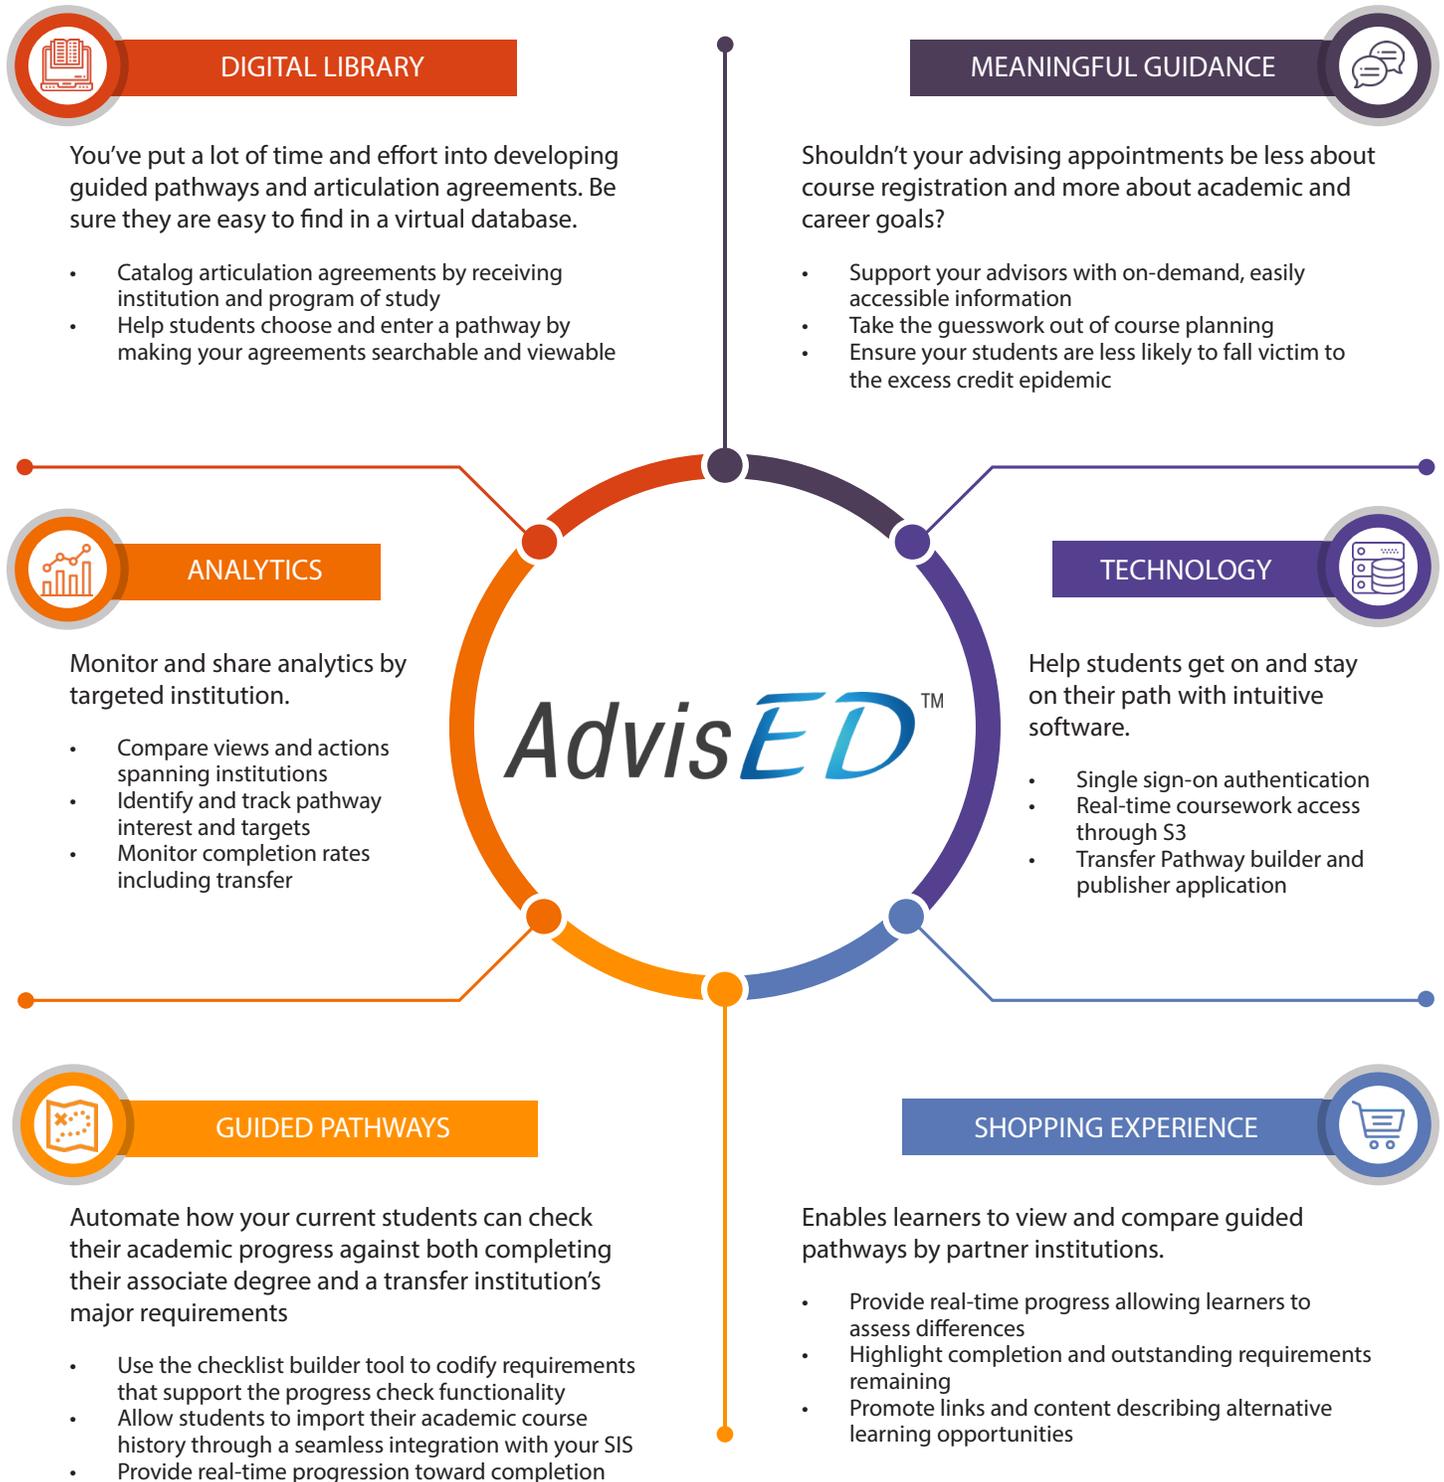

Real-time Advising

Take your articulation agreements beyond paper and to the next level of academic support.
